## FRONTEND DEVELOPER

Qualified IT professional with 3 years of experience in building responsive and Interactive web applications. Seeking challenging assignments with a reputed organization to utilize acquired skills in accomplishing organizational growth objectives

## CORE STRENGTH

➢ Software Architecture
➢ Software Development
➢ Application Test Management
➢ Application Debugging
➢ Frontend Designing
➢ Application Optimization
➢ Web Page Development
➢ Project Management
➢ SLA Compliance
➢ Client Interaction
➢ Team Coordination

## TECHNICAL SKILLS

➢ React.Js, Javascript, HTML, CSS3, chakra-UI, bootstrap, debugging, performance testing, Optimizing Websites, SEO
➢ Next.JS, Typescript, SASS, Testing
➢ React Native, Svelte, Gatsby
➢ PostCSS, Python3, Node JS

## PROFILE SUMMARY

➢ Skilled in creating responsive and mobile-friendly designs, improving website performance and speed, and integrating APIs and third-party tools.
➢ Adept at using markup languages like HTML to create user-friendly web pages, maintaining and improving the website.
➢ Proficient in optimizing applications for maximum speed, and designing mobile-based features.
➢ Collaborate with back-end developers and web designers to improve application usability.
➢ Write functional requirement documents and guides. Create quality mockups and prototypes
➢ High mentoring ability with excellent communication and team management skills. Possess an analytical mindset.

## CAREER GRAPH

**Fleet Desk , USA**
Senior Frontend Developer                                          July 2023 – October 2023

*Accomplishments:*
➢ Optimized application performance and reduced load times by 60%.
➢ Created the dashboard with real-time data integration from ground up
➢ Optimized the code by 30% or more and made the existing codebase more readable and easy to follow

*Accountabilities:*
➢ Involved in making the product better by providing the best user experience
➢ Accountable for documenting the frontend journey on Confluence by creating a clear and concise document that outlines the frontend development process, the tools and technologies used, the challenges faced, and the lessons learned.
➢ Partnered with other developers to identify and alleviate software errors and inefficiencies. Planned website development, converting mockups into usable web presence with HTML, JavaScript, Typescript, and react
➢ Accountable for keeping the document up-to-date as the development process progresses.

**DMIS, Seattle, WA, USA**                                          Sep 2022 – June 2023
Frontend Developer

*Accomplishments:*
➢ Optimized application performance and reduced load times by 60%.

*Accountabilities:*
➢ Involved in evaluating user behavior and designing user interfaces to increase user engagement.
➢ Developed new user-facing features using React.js.
➢ Focused on troubleshooting and debugging various front-end issues. Converted UI/UX into reusable code, and conducted cross-browser testing.
➢ Determined the structure and design of web pages, and ensured that user experience determines design choices. Developed features to enhance the user experience.
➢ Maintained a balance between functional and aesthetic design. Built reusable code for future use, and optimized web pages for maximum speed and scalability.

**SAIZ, Berlin, Germany**

Software Engineer                                                                                   Feb 2022 – Sep 2022

*Accomplishments:*
➢ Designed and implemented a responsive web application using modern frontend frameworks and optimizing page load times that increased user engagement by 30%.
➢ Led a team of front-end developers in creating reusable UI components and improving the overall user experience of a complex web platform, leading to a 20% reduction in user complaints.
➢ Successfully identified and resolved critical performance issues in a legacy codebase leading to a 50% increase in page speed and a greatly improved user experience

*Accountabilities:*
➢ Focused on creating and maintaining a comprehensive style guide and component library ensuring consistency and efficiency across multiple web projects aimed at optimized development time.
➢ Involved in maintaining UI/UX, and converting UI/UX into reusable code. Conducted unit testing, and demonstrated the team's progress to CEO and CFO, and CTO in the weekly calls.

**DropoutDevs, Srinagar,** J&K

Software Engineer                                                                                   Jun / May 2020 – Feb 2022

*Accountabilities:*
➢ Developed programs using a measured, market-focused approach to eliminate waste and streamlined the implementation cycle.
➢ Partnered with other developers to identify and alleviate software errors and inefficiencies. Planned website development, converting mockups into usable web presence with HTML, JavaScript, Sass, and react
➢ Developed Dashboards for the clients to monitor their performance and various status reports to enable senior management decision-making.
